WOMEN! IT IS MAGIC! LIFT OUT ANY CORN

Apply a few drops then lift corns or calluses off with fingers-no pain.

> Just think! You can lift off any corn or callus without pain or soreness. A Cincinnati man discovered this ether compound and named it freezone. Any druggist will sell a tiny bottle of freezone, like here shown, for very little cost. You apply a few drops directly upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off. Freezone is wonderful. It dries instantly. It doesn't eat away the corn or callus, but shrivels it up with-

out even irritating the surrounding skin. Hard, soft or corns between the toes, as well as painful calluses, lift right off. There is no pain before or afterwards. If your druggist hasn't freezone, tell him to order a

small bottle for you from his whole Slightly Mixed. "She refuses my suit?"

This Car Is Worthy of Your Confidence

You can buy a Saxon car secure in the knowledge that you are getting full value in tried and proven motor car mechanism.

Saxon cars are built to win the confidence of their owner - and they do. But first they must win the confidence of their buildersand this they could not if they embodied any feature or any part of unproved worth. So no Saxon principle of construction has ever

been changed until a better principle has fully proved its greater value. And so no Saxon car has ever embodied features of doubtful worth. Saxon cars have simply been in a state of transition, passing thru phase after phase of gradual improvement without a break in pro-

not radically changed. They are in the fullest sense of the phrase, products of evolution. They are developed rather than built.

duction. They are refined from time to time.

Isn't that the kind of a car you want-one that you can feel confident is right before you put down your good money for it? If it is, then you want a Saxon.
